

You have made the right decision learning Joomla! 1.5 and Virtuemart. I wrote the Joomla! 1.5 series of book in order to help others get into Open Source and cut the learning curve by 60%. Joomla, Virtuemart, Community Builder plus all the great extensions are revolutionizing the way websites are created and designed. You now have the power to do it all, without programming or web knowledge.

What is Joomla? Joomla! is a free open source framework and content publishing system designed for quickly creating highly interactive multi-language Web sites, online communities, media portals, blogs and eCommerce applications. Joomla! provides an easy-to-use graphical user interface that simplifies the management and publishing of large volumes of content including HTML, documents, and rich media. Joomla! is used by organisations of all sizes for Public Web sites, Intranets, and Extranets and is supported by a community of thousands of users.

Don't have time to mess with building a website. Let us do it for you. We have made the website process easy by making it ala carte. Select what you need and that is what you pay. No crazy fees. All sites are typically built in less than 48 hours. We are that fast. If you are hosting with us, you don't pay until the site is complete and signed off by you. If when ordering you are hosting with us, please press pay by check and we will send you an invoice once complete.

If you already have a site and you need us to tweak it then you can purchase support tokens for us to walk you through how to fix your site. We are very good at what we do and most issues can be fixed within a 30 minute block of time.

We have full time designers on staff. Also, if you webhost with us or www.spiderweby.com ,

we handhold you through your setup and creation of your site....to ensure you understand how Joomla works. This service is included in your \$6.95 a month.
